LIGHTING SOLUTIONS
FOR HIGH PERFORMANCE

LIGHTING SOLUTIONS FOR HIGH PERFORMANCE

Work light of the future

The sophisticated SCANGRIP work lights are second-to-none and made for the real professional who needs the best tool he can get for the task. The full product line-up covers all kinds of work light solutions with superior quality across the entire range. These are lights made for work and built to last.

Latest technologies for best performance

SCANGRIP constantly push back the boundaries of LED lighting and battery technology, creating new cutting-edge work lights. We always reach for that extra brightness, that extra operation time, those little touches that make a real difference when you need the best work light you can get. We guarantee to provide you with only premium products for optimal performance.

Extreme durability and functional design

SCANGRIP work lights are extremely durable and made to last and do the job again and again. The entire product line is sturdy and endures the

really demanding working environment which expose both the professional worker and his tools to rough, wet, and dirty conditions. The lights are covered by a high IP protection level to resist even outdoor use in all kinds of weather.

GO GREEN - A better choice for the climate

SCANGRIP work lights are a choice in a greener direction where the climate impact is minimized on an everyday basis. All our lighting solutions are developed to be energy saving and with a long lifetime.

Whether you compare energy efficiency with traditional technologies or other LED products, you will save energy by choosing a SCANGRIP work light. The LED PERFORMANCE indicates the ac-

tual light output of the LED in a SCANGRIP work light and we aim for the highest number to achieve less power consumption compared to other solutions on the market.

Extended warranty

Every SCANGRIP work light is manufactured at our own factories and subject to strict quality controls. Our lights meet the highest quality standards and are built to last. They are so good that we offer a warranty extension. All SCANGRIP work lights come with a 3-year warranty. Because we stand by the products we offer.

High quality

SCANGRIP products are known for high quality with a price-to-quality ratio considered to be the best on the market. We have comprehensive quality check procedures, and we are ISO 9001 certified.

Unique design

SCANGRIP receives strong recognition in the marketplace for unique product design. We are inspired by the concept of Danish design and gather ideas from other industries to create new products that have not been seen before.

Europe's leading manufacturer

SCANGRIP provides the strongest and most comprehensive range of durable and functional LED work lights and is Europe's leading and trendsetting manufacturer of work lighting solutions for professionals.

First-mover

SCANGRIP is first-mover and is always two steps ahead when it comes to developing new and innovative LED work lights.

Since 1906

SCANGRIP has manufactured hand tools of very high quality for the industrial and automotive sectors for more than 110 years.

MAG - Europe's most bestselling work lights even further improved

// The rechargeable handheld work lights everybody knows - and loves! With significantly improved light output, battery upgrade and even more functionality, the popular MAG work lights offer great value in every workshop operation.

The MAG series consists of universal and powerful multipurpose work lights that all professional users must have!

- Significantly improved with higher lumen output
- Integrated work light and flashlight functionality in one
- Strong built-in magnetic holders and retractable hooks for handsfree operation
- New stepless dimmer function

PATENT PROTECTED

// Updated and more powerful than ever

Taking advantage of the latest high performance LED technology, the MAG range comprises extremely powerful work lights providing significantly improved light output. Compared to the previous MAG 3 and MINI MAG, the new MAG PROs are upgraded to IP54 and have a new design with battery indicator on front.

// Multipurpose with cool design

The characteristic and elegant design of the MAG hand lamps provides an ergonomic and user-friendly grip. Place anywhere you want with the strong built-in magnetic holders and retractable suspension hooks to obtain complete flexibility. The lamp head is flexible and tilts up to 180 degrees.

// Stepless dimmable

MAG PRO, MINI MAG PRO and MAG PEN 3 are upgraded with a stepless dimmer function in the range of 10% to 100% that enables you to adjust the light output to the work task.

HEADLAMPS *for professionals*

// Pursuing the vision of designing innovative work light for the professional end-user

- Illuminates your entire workspace
- Rechargeable
- Long duration time
- Easy to operate
- Sensor function with touchless on/off switch

As opposed to all other headlamps providing a beam of light, the new I-VIEW and ZONE headlamps are designed to provide optimum work light illuminating your entire work area.

Supplied with the newest COB LED technology, both headlamps provide an extremely powerful illumination which spreads the uniform light to the maximum and lightens up your entire field of view.

You avoid turning the head to illuminate your actual workspace from a limited headlamp beam.

NIGHT VIEW - *for work in the dark*

// New headlamp that keeps your night vision

- Designed for work in the dark
- Rechargeable with touchless sensor function
- Illuminates your entire work space
- Durable, sturdy and waterproof
- Switch between normal white light and red light

3
years
warranty

PATENT PROTECTED

// Choose between white and red work light

The red light is intended for work in the dark and provides light without overexposing the retinas while at the same time keeping the eyes adjusted to the dark.

The red-light functionality is mostly known from the military to read maps on maneuvers at night, but is also needed in civilian professions for work at night, for instance on ships and offshore. On ships it is particularly useful on the bridge at night, because it preserves your night vision so you can work at the control panel. Headlamps with red-light mode are also well suited for security guards that work at night in dark surroundings.

// Newest lighting technology

The NIGHT VIEW provides extremely powerful illumination which spreads the uniform light to the maximum and lightens up your entire field of view. You avoid turning the head to illuminate your actual workspace from a limited headlamp beam.

NIGHT VIEW is provided with the very newest rechargeable battery technology with extraordinary long duration, and sets new standards for professional work light. When set on sensor mode NIGHT VIEW is turned on/off only by waving a hand in front of the lamp. Thus, the light can easily be switched on/off, even when wearing thick gloves.

// Small-sized with super powerful illumination

Featuring the latest LED technology, NOVA MINI is incredibly powerful and provides up to 1000 lumen – which is absolutely unique for such a small lamp. NOVA MINI is supplied with a practical on/off button on the side that is also acting as a light control. Adjust the light output with the stepless dimmer function in the range of 10% to 100%.

As part of the popular NOVA family, NOVA MINI is based on all the same unique and well-known features that the NOVA series is known for. With its compact dimensions, it is more than twenty times smaller than the NOVA 10K and fits perfectly into your pocket.

// SMART GRIP 4-in-1 system

The lamp is supplied with a special, patented SMART GRIP 4-in-1 system that integrates several multi-functions in the same unit. The ring is based on the functionality you know from e.g. mobile phones which makes it easier and more convenient to keep the lamp in your hand for a long time. It relieves the muscles and increases ergonomics.

The clip is designed to fit the work belt and carry the lamp the entire day, and when both hands are needed for a task, the strong built-in magnet can be used for flexible positioning. Furthermore, SMART GRIP can be used as a stand on any available surface.

Change between 360° and 180° illumination

SPS7//

SCANGRIP POWER SOLUTION

// Powerful illumination of the entire work site

AREA 10 SPS provides a diffused and non-blinding work light with large dispersion. You can change between 360° and 180° illumination according to the work task and adjust the light output into five different levels by the built-in dimmer function. The compact design with a carrying handle makes AREA 10 SPS extremely handy and easy to move around. It is also supplied with a hook for flexible positioning and can be mounted directly on the SCANGRIP TRIPOD.

// High flexibility and long operating time

AREA 10 SPS is supplied with the innovative SCANGRIP POWER SOLUTION system, providing high flexibility and unlimited availability to light. You can easily exchange the battery or simply add the charger directly to the lamp to get power supply. AREA 10 SPS also has an integrated battery backup function and is supplied with a built-in power bank with USB outlet to charge mobile devices.

// BLUETOOTH light control

With the integrated BLUETOOTH light control, you get an extraordinary possibility to turn on/off the work light and adjust the light output through your mobile device. This feature saves time from manual operation and increases work efficiency on a daily basis.

Built-in power bank

STANDS and SUSPENSIONS

// Designed for direct mounting of the NOVA work lights, STAR, and AREA LIGHT 10 SPS without bracket. Made of durable and sturdy powder coated steel for both indoor and outdoor use

// High stability tripod

The SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area. The SCANGRIP TRIPOD is extendable from only 1.35 m up to 3 m which gives you complete flexibility to position the light in the requested height.

The stable construction of the SCANGRIP TRIPOD makes it safe even when fully extended. To increase safety when in use the cable of the lamp can be fixed in the safety clips placed on each separate leg.

// Wheel stand for mobile positioning

The SCANGRIP WHEEL STAND is developed for mobile positioning of the work light typically in the workshop. It makes it easy to move the light to where you need it, and at the same time you avoid uncomfortable and heavy lifting from one workplace to the other. When the job is done the stand can easily and fast be put aside.

The SCANGRIP WHEEL STAND is extendable from only 0.7 m up to 1.9 m which gives you complete flexibility to position the light in the requested height. The 3 wheels are sturdy and of high quality and roll easily even on uneven surfaces. 2 of the wheels are lockable to secure a safe and fixed position.

// Powerful illumination and BLUETOOTH light control

Based on the newest state-of-the-art LED technology, the SITE LIGHTs provide an extremely high light output and a wide 120° beam angle, ensuring super bright illumination of a large work area. The dimmer function enables you to adjust the light in four different levels, and by using the BLUETOOTH light control app, you can turn on/off the work light and adjust the light remotely through your mobile device. When the work lights are mounted on high masts, this feature reduces the power consumption on an everyday basis as you only use the amount of light necessary to do the job.

// Compact design for easy mounting

The SITE LIGHTs are designed with a built-in handle for easy carrying and mounting on tripod and masts. They are extremely compact and low weight compared to other solutions on the market, which makes the mounting of the work lights more convenient. The SITE LIGHTs come with

10-meter cable and include a DIN14640 connection adapter with bracket for mounting on a tripod.

// Built to do the job at the construction site

The SITE LIGHTs are completely dust and waterproof (IP65) and tolerate all kinds of weather conditions from -25° to +40°C. Featuring high-quality components and active cooling, the work lights have a long lifetime and keep a high performance level throughout the day.

New FLASHLIGHT series

// SCANGRIP provides the strongest and most comprehensive range of LED work lights on the market. We are now proud to present an upgraded and re-designed flashlight series providing extremely high light output and improved functionality for an even better user experience.

The new flashlights are available both as rechargeable and with batteries, providing brand-new features and accessories to increase work efficiency.

- Boost mode
- Practical clip-on holster for the work belt
- One-hand operated magnetic switch
- Higher lumen output
- Long operation time

NEW

Boost mode

The new flashlight series is supplied with a boost mode enabling you to double the lumen output with a simple one-hand operation. Push the magnetic, electronic switch for two seconds to activate boost mode.

The flashlight automatically turns to normal mode after 60 seconds.

Clip-on holster

Sturdy and practical clip-on holster for the work belt for easy carrying everywhere you go. Compared to the nylon belt pouch, the new clip-on holster provides free access to the flashlight. You simply put the flashlight into the holder and rotate it to lock it in place.

Can also be mounted on the edge of a workbench for easy storage.

Focus function

By means of the focus function you can vary the beam angle, from concentrated and focused light beam angle to long-distance light.

Ergonomic design

The elegant, fine grooved metallic surface of the flashlights provides an ergonomic, firm and user-friendly grip.

High durability

The housing is made of anodised aluminum with a high impact resistance making the flashlights extremely sturdy and durable. Waterproof, IP54.

Wrist strap

The soft and handy silicone wrist strap provides a secure operation while keeping the flashlight close at hand at all time.

NEW

FLASH series with batteries

// The new durable flashlight series with Alkaline batteries is designed for the rough and demanding work environment providing high-quality flashlights for all types of inspection tasks.

PATENT PROTECTED

// Bright illumination exactly where you need it

By means of a built-in prism, LINE LIGHT concentrates the light in a 75° beam angle providing an extremely bright and powerful illumination of the specific working area. Blinding during work is avoided, and the lamp itself can be turned to provide the optimum lighting angle.

// Innovative LED technology

The LINE LIGHT series is based on the newest state-of-the-art LED technology. LINE LIGHT provides almost double illumination compared to the traditional 36W fluorescent tubes which are commonly used within the industry.

The quality of the light is extremely powerful, like daylight which is optimum for precise recognition of colours, shades and other product details. The uniform, flicker free illumination without strobe effects also minimizes the risk of accidents.

// Extreme durability

LINE LIGHT is constructed by a closed "unbreakable" extruded acrylic profile which makes it extremely sturdy and shockproof to endure even strong strokes, shocks and vibrations from industrial machinery.

LINE LIGHT endures the rough, wet and dirty conditions of the professional working environment within the industry and is resistant to both oil and chemicals. The IP67 classification means that it is resistant to both dust and water. LINE LIGHT is completely maintenance free.

// Reduced power consumption

Compared to traditional fluorescent tube lighting LINE LIGHT only consumes half the amount of electricity which presents serious cost savings on electricity.

// Dimmer

With the new dimmer function it is possible to adjust the light intensity stepless from 1-100% to meet individual working conditions. LINE LIGHT 2-POST and LINE LIGHT 4 is delivered incl. dimmer, and can also be bought separately and retrofitted on all existing LINE LIGHT installations.

COMPLETE lighting solution for automotive lifts

- Extremely powerful illumination of working area
- Improves work efficiency and working conditions
- Avoid blinding the mechanic during work
- Adjustable lighting angle

// Compact design

LINE LIGHT provides an extremely bright and powerful illumination of the entire undercarriage - almost double illumination compared to traditional 36W fluorescent tubes. The slim and compact design leaves space for the center jack to pass.

// Easy DIY installation

As LINE LIGHT is a low operating voltage (24V DC) system, you can easily do the installation yourself. All basic fittings are supplied with each kit together with power supply and cable. The pre-defined LINE LIGHT kits are considered universal and will fit the majority of all automotive 4-post lifts, regardless of the manufacturer or brand.

SOUND LED S

	STAR
Product number	03.5620
Light source	COB LED
LED performance, lumen/W	140
Luminous flux, lumen	500-1000
Illuminance, lux@0.5 m	800-1600
Adjustable light output	2 levels
Beam angle	-
CRI	Ra > 80
CCT	6000 K
Operating time, h	Up to 5
Charging time, h	6
Battery	3.7V/5200 mAh Li-ion
Protection class	IP65
Impact protection	IK07
Impact resistance	1 m
Cable	1 m USB
Operating voltage AC	-
Charging voltage/current DC	5 V / 1 A
Power consumption	Max 8.5 W
Charger incl.	Country depended
Temperature	-10° to +40°C
Dimensions	156 x 103 x 98 mm
Net weight	710 g
Price	€ 99.90

	SOUND LED S
Product number	03.5900
Light source	COB LED
LED performance, lumen/W	170
Luminous flux, lumen	300-600
Illuminance, lux@0.5 m	1000-2000
Adjustable light output	2 levels
Beam angle	-
CRI	Ra > 80
CCT	6000 K
Operating time, h	Up to 6
Charging time, h	5
Battery	3.7V / 5200 mAh Li-ion
Protection class	IP65
Impact protection	IK07
Impact resistance	1 m
Cable	1 m USB
Operating voltage AC	100-240V AC
Charging voltage/current DC	5 V DC / 2 A
Power consumption	Max 7 W
Charger incl.	Yes
Temperature	-10° to +40° C
Dimensions	92 x 86 x 74 mm
Net weight	430 g
Price	€ 119.90

// Chargers for all countries

Electrical plugs and voltages differ from country to country around the world. SCANGRIP offers chargers to all country variants worldwide. Go to our website for a complete list of chargers for our rechargeable work lights and all other accessories available.

Combine LINE LIGHT lighting units with power supply, cable and suitable suspensions.

A range of flexible suspensions makes it possible to position the lighting units exactly where you need it.

POWER SUPPLY/CABLE		Product number	Price
2m cable  5m cable	25W power supply unit	03.5229	€ 31.50

// SCANGRIP is Europe's leading manufacturer of work lights for professionals providing the strongest and most comprehensive ranges of work lights with the latest LED lighting technology available on the market.

SCANGRIP is innovation from Denmark: All products are designed and developed by SCANGRIP in Denmark and manufactured at our own factories.

SCANGRIP receives strong recognition in the marketplace for its product design, and the products are known for their high quality.

SCANGRIP strives for perfection, and is continuously optimizing and improving light output, battery capacity, design and ergonomics, durability, user-friendliness and functionality. The aim is to set new standards for professional work lights.

SCANGRIP was established in 1906 and has been manufacturing high quality hand tools for the industrial and automotive sectors for more than 110 years.
